This catalogue contains over 7,000 alternator and generator spare parts covering all commonly used parts such as regulators, bearings, rectifiers and stators as well as many more components required when repairing alternators and generators. The catalogue also includes a complete cross reference list.

”Becoming an HC-CARGO supplier is not that easy. They have to fulfil a long list of preconditions and need to be DIN EN ISO 9001 certified. Last but not least they have to convince me. Together with the quality department I visit our suppliers and test them intensively before they deliver the first products.”

ALTERNATOR & GENERATOR COMPONENTS

Edition 2013/2014

Our Spare Parts for Alternators and Generators - All You Need

This catalogue contains over 7,000 new replacement components making it the most extensive range available. The range includes all commonly used parts such as regulators, bearings, rectifiers and stators as well as many more components required when repairing alternators and generators.

With this range we cover virtually all vehicles in the European market making HC-CARGO your one-stop-supplier.

Our engineers test the spare parts thoroughly in terms of interaction, perfect fit and easy installation before the products are approved. In this way, we continuously ensure high quality.

New Highlights - HC-CARGO Bearings

With our new bearing range HC-CARGO introduces a range of own bearings - quality enhanced and tested according to the finest precision, vibration and clearance levels. With a quality level higher than our aftermarket competitors the new HC-CARGO bearings replace our former HC-CARGO bearing range.

With the HC-CARGO bearings you get:

- Grease: Synthetic Oil + Urea
- Outstanding long-life, high temperature performance and lubrication of ball and roller bearings
- Excellent mechanical shear stability
- Low noise properties
- Excellent corrosion resistance, even in the presence of salt water

The HC-CARGO bearing range cover 57 part numbers that together cover the market high runners. All bearings are supplied with HC-CARGO logo.

New Highlights - HC-CARGO Freewheel Pulleys

HC-CARGO introduces its own freewheel pulley series with HC-CARGO logo and number. The series features the 40 most popular freewheel pulleys with high vehicle park coverage.

With a HC-CARGO freewheel pulley you will get

- High coverage of European top-sellers
- High performance bearing and grease
- Compact design
- Superior robustness
- Better sealing
- Exclusive spring/roller design
- Tested according to OEM standards

New Highlights - Introduction of High Quality alternatives in HC-CARGO

We have extended our wide HC-CARGO spare parts range with a high quality alternative on selected spare parts. We have marked these products with a “5 Star” icon.

The “5 Star” icon will help you in making your product choice. If the icon appears, the part is in OE-quality, the best possible quality on the market. If no icon appears the part is in the aftermarket quality you know from HC-CARGO.

HC-CARGO “5 Star” covers what we in the Automotive Aftermarket name “original spare parts” and “OE-equivalent spare parts”. The suppliers behind are Original Equipment-manufacturers, the so-called OE- or OEM-suppliers.

Products in aftermarket quality are made by suppliers other than OE- or OEM-manufacturers. At HC-CARGO we choose only aftermarket suppliers, which meet our high quality standards. All HC-CARGO products are tested in our in-house test facilities, before they are launched.

Our Product Range - Your Customer Satisfaction

Most spare part-dealers offer only specialized programs. We have decided to have a broad product range to meet the demands of workshops in the best possible way. At HC-CARGO you can get all products from a single source.

The HC-CARGO product range is broad in many ways. Firstly, it is broad in function as you will find all the electrical parts you need to repair vehicles. From spare parts for starters and alternators to the units themselves, A/C compressors, lighting products and many other auto-electrical spare parts.

Secondly, it is broad in applications. Whether for passenger cars, commercial vehicles, agricultural machinery or marine applications you will find the right product at HC-CARGO. The conventional workshop will find just as much as the big remanufacturer.

We continuously strive for extending the program to offer the most comprehensive solution whether it is a simple replacement of a complete unit or a spare. Since the making of this catalogue we have already launched new part numbers, which you can find in our online catalogues at www.hc-cargo.com

Bearing Tolerance Rings

- Repair worn bearing housings, even those you used to throw away.
- Tolerance rings are compression sleeves specially designed to mount ball bearings securely with only a light press-fit. Each corrugation in a tolerance ring acts as an individual spring exerting a uniform compressive force to give a firm grip and prevent outer-race rotation.

Bearing Grease

200746 Molykote BR2 Bearing Grease

Molykote BR 2 plus universal heavy duty grease provides:

- reduction of wear
- emergency lubrication
- higher operational reliability
- extended lubrication intervals even under high loads and difficult running conditions. Molykote BR 2 plus is suitable for a wide temperature range; it is resistant to oxidation and resists hot and cold water. It also has good corrosion-inhibiting properties

Range of application

Molykote BR 2 plus can be used wherever grease lubrication is normally applied, e.g. for:

- all types of antifriction bearings
- plain bearings and guides
- joints and splined shafts
- threaded spindles and small gear units at low speeds and all bearings subject to severe impact loads or exposed to extreme atmospheric conditions
- for chassis lubrication on motor vehicles
